Sub: Introduction of Online Trading Platform – HTML5

It gives us Immence Pleasure to announce, the launch of Online Trading Platform –HTML5.

url : <https://pcssecurities.in/html5>

Key features of HTML5 version of Net.net Browser based solution.

- Very small footprint (Small page size = Faster page loading)
- OS and Browser independent (Win/MAC/Linux + Any HTML5 compatible Browser)
- Type and Search menus
- Favorites Menu
- Single website for Desktop, Tablet and Phones
- Auto-detect device and load appropriate Website
- 3 different layouts based on Screen resolution and device (Desktop/Tablet/Mobile)
- Optimized for Touch Interface
- Unread Messages Notification
- No dependency on Flash or JRE component for Streaming Broadcast
- Customizable Keyboard Shortcuts
- Smart scrolling Indices View
- User defined Default MW View (Grid/Block/Heat map/Pivot)
