Product Labelling	For product labelling please refer to the cover page																													
Investment Objective	To seek to generate long term capital appreciation from a diversified portfolio of equity and equity related securities and to generate reasonable returns by investing in a portfolio of debt and money market instruments and arbitrage opportunities in the cash and derivatives segments of the equity markets.																													
Asset Allocation Pattern	Under normal circumstances, it is anticipated that the asset allocation for the Scheme shall be as follows:																													
	Types of Instruments	Indicative allocations (% of net assets)																												
		Maximum	Minimum																											
	A. Equity and Equity related instruments	80	65																											
	A1. Net long equity	80	20																											
	A2. Equity and equity derivatives (arbitrage opportunities)	60	0																											
	B. Debt, Money Market Instruments and Government Securities (including CBLO/ reverse repos and securitized debt)	35	20																											
	Further, the net long equity allocation within the above specified range would be decided based on the weighted average P/E ratio of Nifty 50 Index as per the asset allocation model shown below.																													
	Nifty 50 Index weighted average P/E range	Unhedged equity allocation	Hedged equity allocation																											
	Upto 14	70% to 80%	0 to 10%																											
	14-16	60% to 70%	0 to 20%

	20-22	30% to 40%	25% to 50%																											
	Above 22	20% to 30%	35% to 60%																											
	The net long equity allocation will be determined based on the month-end weighted average PE ratio of the Nifty 50 Index and the portfolio will be rebalanced within the first five business days of the following month. The Fund Manager(s) would also have the flexibility to rebalance the portfolio at more frequent intervals based on prevailing market situation. The data on PE Ratio of the Nifty 50 Index will be sourced from the stock exchange or any other agencies that the AMC may find appropriate. The Investment Committee, with notification to the Trustees, reserves the right to change the PE ratio range, or use any other criteria for determining the net long equity allocation if the Nifty 50 Index is either suspended or becomes irrelevant. The Scheme may invest upto 35% of its net assets in securitized debt. The Scheme will not invest in foreign securities and credit default swaps. The Scheme shall have derivatives exposure as per the SEBI/RBI Guidelines issued from time to time. Further, the Scheme may undertake interest rate derivatives transactions for the purpose of hedging and portfolio rebalancing (within the permissible limits specified by RBI/SEBI from time to time). The gross investments in securities under the Scheme which includes Debt, Money Market Instruments, Government Securities and Equity and Equity Related Instruments including Securitized debt and, Derivatives shall not exceed 100% of net assets of the Scheme. However, following will not be considered while calculating the gross exposure: a) Security-wise hedged position and b) Exposure in cash or cash equivalents with residual maturity of less than 91 days. The exposure to derivatives will be calculated on notional value of the derivative contracts.

	Impact of the total expense ratio on the returns of the Scheme: A mutual fund scheme's return is determined by the returns earned from the portfolio of underlying securities that the scheme has invested in, adjusted for scheme expenses. For example, if the return to investor is 15.00% and the scheme's total expense ratio is 2.00%, the total return earned from the underlying portfolio of securities would be approximately 17.00%. The published NAV's of the mutual fund schemes are net of scheme expenses and hence they reflect the return to the investors, provided investment is not subject to exit load.

Dividend Policy	The Trustee may decide to distribute by way of dividend, the surplus by way of realised profit, dividends and interest, net of losses, expenses and taxes, if any, to Unit Holders in the dividend option of the Scheme if such surplus is available and adequate for distribution in the opinion of the Trustee. The Trustee's decision with regard to availability and adequacy, rate, timing and frequency of distribution shall be final. The dividend will be due to only those Unit Holders whose names appear in the register of Unit Holders in the dividend option of the Scheme on the record date which will be fixed by the Trustees and announced in advance. Further, the NAV shall be adjusted to the extent of dividend distribution and statutory levy, if any, at the close of business hours on record date. Within one day of the decision by the Trustees regarding dividend distribution rate and record date, AMC shall issue notice to the public communicating the decision including the record date. The record date shall be 5 calendar days from the issue of notice. Such notice shall be given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the mutual fund is situated. The Unit Holders will have the option of receiving the dividend or reinvesting the same. The dividend will be reinvested at the ex-dividend NAV. In case of investors opting for dividend payout facility, the AMC shall dispatch to the Unit Holders, the dividend warrants within 30 days of the date of declaration of dividend. Under the dividend payout facility, if the amount of dividend payable to the Unit Holder is less than Rs. 250, then the dividend amount will be compulsorily reinvested in the Scheme.

Product Labelling	For product labelling please refer to the cover page
--------------------------	--

Investment Objective	To generate regular income by predominantly investing in arbitrage opportunities in the cash and derivatives segments of the equity markets and debt and money market instruments and to generate long-term capital appreciation through unhedged exposure to equity and equity related instruments.
-----------------------------	--

Asset Allocation Pattern	Types of Instruments	Indicative allocations (% of net assets)		Risk Profile
		Maximum	Minimum	
A.	Equity and equity related instruments	90	65	High
A1.	Equity and equity derivatives (arbitrage opportunities)	70	35	Medium to High
A2.	Net long equity*	30	20	High
B.	Debt, Money Market Instruments and Government Securities (including CBLO/ reverse repos, Credit default swaps, equity linked debentures, margin money and securitized debt)	35	10	Low

* The unhedged equity exposure shall be limited to 30% of the portfolio value. Unhedged equity exposure means exposure to equity shares alone without a corresponding equity derivative exposure. The Scheme may invest upto 25% of its net assets in Securitized debt. The Scheme will not invest in foreign securities. The Scheme may invest upto 70% of its net assets in equity derivatives. The Scheme does not propose to engage in short selling, securities lending and repo in corporate bonds. The Scheme shall have derivatives exposure as per the SEBI/RBI Guidelines issued from time to time. Further, the Scheme may undertake interest rate derivatives transactions for the purpose of hedging and portfolio rebalancing (within the permissible limits specified by RBI/SEBI from time to time). Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as may be amended from time to time. The cumulative gross investments in securities under the Scheme which includes Debt, Money Market Instruments, Government Securities and Equity and Equity Related Instruments including Securitized debt and Derivatives shall not exceed 100% of net assets of the Scheme. However, following will not be considered while calculating the gross exposure: a) Security-wise hedged position and b) Exposure in Cash or cash equivalents with residual maturity of less than 91 days. The exposure to derivatives will be calculated on notional value of the derivative contracts. The aforesaid asset allocation pattern is not absolute and can vary depending upon the AMC's perception of the debt, equity and money markets as well as the general view on interest rates. The asset allocation pattern indicated above may thus be altered only on defensive considerations (including in the event of adequate arbitrage opportunities not being available in the equity and derivative markets) and the intention being at all times to protect the interests of Unit Holders for a short period not exceeding 1 month.

Impact of the total expense ratio on the returns of the Scheme: A mutual fund scheme's return is determined by the returns earned from the portfolio of underlying securities that the scheme has invested in, adjusted for scheme expenses. For example, if the return to investor is 15.00% and the scheme's total expense ratio is 2.00%, the total return earned from the underlying portfolio of securities would be approximately 17.00%. The published NAVs of the mutual fund schemes are net of scheme expenses and hence they reflect the return to the investors, provided investment is not subject to exit load.																																																																																	
Expenses	Exit Load: For redemption within 1 year from the date of allotment or Purchase applying First in First Out basis 0.5% of applicable NAV.																																																																																
Load Structure	After 1 year from the date of allotment or Purchase applying First in First Out basis- NIL																																																																																
For Ongoing Offer	A switch-out or a withdrawal under SWP or a transfer under STP (except a switch-out or a transfer under STP into any of the Equity Schemes (except L&TAOF and L&TBCF) or fund of funds schemes) may also attract an Exit Load/CDSC like any Redemption. No Exit Load/CDSC will be chargeable in case of switches made between different options of the Scheme. No Exit Load will be chargeable in case of (i) Units allotted on account of dividend reinvestments; and (ii) Units issued by way of bonus, if any.

Impact of the total expense ratio on the returns of the Scheme: A mutual fund scheme's return is determined by the returns earned from the portfolio of underlying securities that the Scheme has invested in, adjusted for scheme expenses. For example, if the return to investor is 15.00% and the Scheme's total expense ratio is 2.00%, the total return earned from the underlying portfolio of securities would be approximately 17.00%. The published NAVs of the mutual fund schemes are net of scheme expenses and hence they reflect the return to the investors, provided investment is not subject to exit load.																																																
Expenses	Exit Load: NIL																																															
Load Structure For Ongoing Offer	A switch-out or a withdrawal under SWP or a transfer under STP (except a switch-out or a transfer under STP into any of the Equity Schemes or fund of funds schemes or L&TFBF or L&TSTIF) may also attract an Exit Load/CDSC like any Redemption. No Exit Load/CDSC will be chargeable in case of switches made between different plans/options of the Scheme No Exit Load will be chargeable in case of; (i) Units allotted on account of dividend re-investments; and (ii) Units issued by way of bonus, if any. In case of units switched out/systematically transferred to another option/Plan within the same Plan/Scheme and if subsequently redeemed, for the purpose of determining the Exit Load, the date when such units were first allotted in the respective Plan/Scheme will be considered as the purchase/allotment date.

	Impact of the total expense ratio on the returns of the Scheme: A mutual fund scheme's return is determined by the returns earned from the portfolio of underlying securities that the Scheme has invested in, adjusted for scheme expenses. For example, if the return to investor is 15.00% and the Scheme's total expense ratio is 2.00%, the total return earned from the underlying portfolio of securities would be approximately 17.00%. The published NAVs of the mutual fund schemes are net of scheme expenses and hence they reflect the return to the investors, provided investment is not subject to exit load.

Impact of the total expense ratio on the returns of the Scheme: A mutual fund scheme's return is determined by the returns earned from the portfolio of underlying securities that the Scheme has invested in, adjusted for scheme expenses. For example, if the return to investor is 15.00% and the Scheme's total expense ratio is 2.00%, the total return earned from the underlying portfolio of securities would be approximately 17.00%. The published NAV's of the mutual fund schemes are net of scheme expenses and hence they reflect the return to the investors, provided investment is not subject to exit load.

	Impact of the total expense ratio on the returns of the Scheme: A mutual fund scheme's return is determined by the returns earned from the portfolio of underlying securities that the scheme has invested in, adjusted for scheme expenses. For example, if the return to investor is 15.00% and the scheme's total expense ratio is 2.00%, the total return earned from the underlying portfolio of securities would be approximately 17.00%. The published NAVs of the mutual fund schemes are net of scheme expenses and hence they reflect the return to the investors, provided investment is not subject to exit load.																	
Expenses Load Structure For Ongoing Offer	<p>Exit Load: For redemption within 1 year from the date of allotment or Purchase applying First in First Out basis - 2% of Applicable Net Asset Value. After 1 year but on or before 2 years from the date of allotment or Purchase applying First in First Out basis - 1% of Applicable Net Asset Value. After 2 years - NIL.</p> <p>A switch-out or a withdrawal under SWP may also attract an Exit Load like any Redemption.</p> <p>No Exit Load will be chargeable in case of switches made between different options of the Scheme.</p> <p>No Exit Load will be chargeable in case of (i) Units allotted on account of dividend reinvestments; and (ii) Units issued by way of bonus, if any.</p>

Information Common To All Schemes

Unit Holders' Information

Consolidated Account Statements/Account Statements

The AMC/Mutual Fund will send to the investor whose application for Purchase/Redemption has been accepted, a confirmation specifying the number of units allotted/redeemed by way of e-mail and/or text message within 5 Business Days from the date of allotment/redemption to the investor's registered e-mail address and/or mobile number.

CAS for each calendar month will be sent on or before 10th of the succeeding month by way of mail/e-mail to the Unit Holders who have transacted during the month.

In case of a specific request received from the Unit holders, the AMC/Mutual Fund will provide the account statement in physical form to the investors within 5 Business Days from the receipt of such request.

In the event a folio has more than one registered holder, the first named Unit holder will receive the CAS/account statement.

CAS will not be sent to the Unit holders in respect of the folio(s) where the PAN details are not updated. The Unit holders are therefore requested to ensure that the folio(s) are updated with the PAN details.

Further, a CAS shall also be sent by mail/e-mail at the end of every six months (i.e. September/March), on or before 10th day of succeeding month to all those Unit Holders who have not transacted in the folios during the period of last six months.

Account statements to be issued in lieu of Unit Certificates under the Scheme shall be non-transferable. The account statement shall not be construed as a proof of title.

A non-transferable Unit Certificate will be sent to the Unit Holder within 5 Business Days following the receipt of a written request. Units are non-transferable. The Trustees reserves the right to make the Units transferable at a later date, subject to the Regulations.

However, in case of Unit Holders holding units in the dematerialized mode, the Mutual Fund will not send the account statement to the Unit Holders. The statement provided by the Depository Participant will be equivalent to the account statement. All Units will rank pari passu, among Units within the same option in the Scheme, as to assets and earnings.

Annual Report

An annual report of the Schemes will be prepared as at the end of each financial year (i.e. March 31) and copies of the report or an abridged summary thereof will be sent to all Unit Holders as soon as possible but not later than 4 months from the closure of the relevant financial year. In case of an Unit Holder whose email address is available with the AMC/Mutual Fund, the annual report or abridged summary thereof will be sent by way of an e-mail at the email address provided by the Unit Holder and such Unit Holder will not receive physical copies of the annual report or abridged summary thereof unless a specific request is received by the AMC/Mutual Fund in this behalf from the Unit holder.

The Unit Holder may request for physical copies of the annual report or abridged summary thereof by calling the toll-free investor line of the AMC at 1800 2000 400 or 1800 4190 200.

An Unit holder whose e-mail address is not available with the AMC/Mutual Fund, the AMC shall continue to dispatch the annual report or an abridged summary thereof in physical form.

The full report or the abridged summary thereof will be displayed on the website of the Mutual Fund i.e. www.Intmf.com and will also be available for inspection at the registered office of the AMC and a copy thereof will be provided on request to the Unit Holder.

Half yearly disclosures:

Portfolio

This is a list of securities where the corpus of the Schemes is invested. The market value of these investments is also stated in the portfolio disclosures. Full portfolio details, in the prescribed format, shall be disclosed either by publishing it in the newspapers or by sending to the Unit Holders within one month from the end of each half-year (i.e. March 31 and September 30) and it shall also be displayed on the website of the Mutual Fund.

Financial Results

The Mutual Fund shall before the expiry of one month from the close of each half year (i.e. March 31 and September 30) display its unaudited financial results on the website of the Mutual Fund.

Further, an advertisement disclosing the hosting of the aforesaid results on the website shall be published in one national English daily newspaper circulating in the whole of India and in a Marathi daily newspaper.

Monthly Portfolio Disclosures:

The Mutual Fund/ AMC will disclose portfolio (along with ISIN) of the Schemes as on the last day of the month on its website www.Intmf.com on or before the tenth day of the succeeding month in a user-friendly and downloadable format.

Sectoral Allocation:

In accordance with SEBI requirements, the total exposure to single sector shall not exceed 25% or such other limit as may be specified by SEBI from time to time of the net assets of the scheme. The Sectoral classification shall be as per AMFI classification, as amended from time to time. However, this limit is not applicable for investments in Bank CDs, Collateralized borrowings and lending obligations (CBL0), Government Securities, Treasury Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and short term deposits of scheduled commercial banks.

Direct Plan under a Scheme shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid/charged under Direct Plan.

The AMC shall charge the Scheme with investment management and advisory fees in accordance with Regulation 52 (2) of SEBI Regulations.

The Mutual Fund/AMC shall annually set apart at least 2 basis points of the daily net assets of a Scheme within the maximum limit of total recurring expenses as per Regulation 52 for investor education and awareness initiatives.

In accordance with Regulation 52 (6A), the following expenses can be charged in addition to the existing total recurring expenses charged under Regulation 52 (6):

- brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 % in case of cash market transactions and 0.05 % in case of derivatives transactions.
Please note that any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market and derivatives transactions respectively, shall be charged to the Scheme within the total recurring expenses limit specified under Regulation 52. Any expenditure in excess of the said limit will be borne by the AMC/Trustees/Sponsors.
- additional recurring expenses up to 30 basis points on daily net assets of the Scheme, if the new inflows from cities as specified by SEBI are at least (a) 30% of gross new inflows in the scheme; or (b) 15% of the average assets under management (year to date) of the Scheme, whichever is higher.
In case inflows from such cities are less than the higher of (a) or (b) stated above, additional expenses on daily net assets of the Scheme can be charged on a proportionate basis.
The expenses so charged can be utilised for distribution expenses incurred for bringing inflows from such cities.
The amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.
- additional expenses, incurred towards different heads mentioned under sub-Regulations 52 (2) and 52 (4), not exceeding 0.20 % of the daily net assets of the scheme.

Service Tax:

- Service tax on the investment management and advisory fees will be charged to the Scheme in addition to the total recurring expenses limit specified under Regulation 52.
- Service tax, if any, on any other fees/expenses (including brokerage and transaction costs on asset purchases) shall be charged to the Scheme within the total recurring expenses limit specified under Regulation 52.

Information Common To All Schemes

Note on Employee Unique Identity Number ("EUN") Please note that disclosing Employee Unique Identity Number is important, especially in case of advisory transactions, as it will help us in resolving your query and assist in tackling the problem of misselling of Mutual Fund schemes.

Risk Profile of the Schemes Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document carefully for details on risk factors before investment. **Scheme specific risk factors are summarized below:**

As per SEBI circular no. SEBI/IMD/CIR No.10/22701/03 dated December 12, 2003, each scheme/plan (including the plans thereunder) should have a minimum of 20 Unit Holders and no single Unit Holder should account for more than 25% of the corpus of such scheme/plan. The aforesaid conditions should be met in each calendar quarter on an average basis. In case of non-fulfilment with the first condition i.e. minimum of 20 investors in the scheme/plan, for each calendar quarter as specified by SEBI, the scheme/plan shall be wound up by following the guidelines prescribed by SEBI and Unit Holders' investment in such scheme/plan would be redeemed at the Applicable NAV. SEBI has further prescribed that if any investor breaches the 25% limit over a quarter, a rebalancing period of one month will be allowed to the investor and thereafter the investor who is in breach of the limit shall be given 15 days notice to redeem his exposure over the 25% limit. In the event of failure on part of the said investor to redeem the excess exposure, the excess holding will be automatically redeemed by the Fund following the guidelines prescribed by SEBI.

Risk Factors pertaining to Equity Schemes/Funds

Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Equity Schemes may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Equity Schemes to make intended securities purchases, due to settlement problems, could cause the Equity Schemes to miss certain investment opportunities. Similarly, the inability to sell securities held in the Equity Schemes' portfolios would result at times, in potential losses to the respective Equity Schemes, should there be a subsequent decline in the value of securities held in such Equity Schemes' portfolios.

Investments in equity and equity related securities involve a degree of risks and investors should not invest in Equity Schemes unless they can afford to take the risk of losing their investment. Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. The liquidity and valuation of the Schemes' investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's liability to meet the principal payments. Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of credit worthiness of the issuer of such instruments. The AMC endeavours to manage such risk by the use of inhouse credit analysis. The NAV of Equity Schemes' Units, to the extent that such Schemes are invested in money market instruments, will be affected by the changes in the level of interest rates. When interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline. The NAV will also be affected by Risks associated with investments made in derivatives. The NAV of the Equity Schemes will also be affected by Risk Factors associated with scrip lending and investments in Foreign Securities.

Risk Factors pertaining to Debt Schemes/Funds

In addition to the factors that affect the values of securities, the NAV of Units of the Debt Schemes will fluctuate with the movement in the broader fixed income, money market and derivatives market and may be influenced by factors influencing such markets in general including but not limited to economic conditions, changes in interest rates, price and volume volatility in the fixed income markets, changes in taxation, currency exchange rates, foreign investments, political, economic or other developments and closure of the stock exchanges. Further the investments made by the Debt Schemes will also be affected by interest rate/price risk, credit risk or default risk, sovereign risk, liquidity risk, re-investment risk, settlement risk, risk associated with investment in derivatives and foreign securities.

Risks Factors associated with transaction in Units through stock exchange(s)

In respect of transaction in Units of the Scheme through BSE and/or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/or NSE and their respective clearing corporations on which the Fund has no control.

Additional Scheme Specific Risk Factors

- ◆ **L&TTAF and L&TTSF:** By virtue of requirements under ELSS, Units issued under L&TTAF will not be redeemed until the expiry of three years from the date of their allotment. The ability of an investor to realise returns on investments in L&TTAF is consequently restricted for the first three years. Redemption will be made prior to the expiry of the aforesaid three year period only in the event of the death of a Unit Holder, subject to the Units having been held for a period of one year from the date of their allotment.
- ◆ **L&TTFV:** To the extent that the Scheme is invested in ETFs, the Scheme will be subject to all risks associated with such ETFs and the underlying assets that it is tracking. The Scheme can purchase/redeem units of ETFs only through stock exchanges on which such ETFs are listed and not directly through a mutual fund. Thus there could be a liquidity issue. The units of ETF may trade above (at a premium) or below (at a discount) the scheme's net asset value (NAV). The price of the units of an ETF is influenced by the forces of supply and demand. Thus the Scheme may not be able to purchase/redeem units of an ETF at the applicable NAVs.
- ◆ **L&TTSF: Volatility Risk –** Investors may note that AMC/Fund Manger's investment decisions may not be always profitable. The Scheme proposes to invest substantially in equity and equity related securities. The Scheme will, to a lesser extent, also invest in money market securities. Trading volumes, settlement periods and transfer procedures, generally for equity and equity related securities and in particular Midcap and Small Cap stocks, may restrict the liquidity of these investments and experience high volatility
- ◆ **L&TMIP:** Monthly Income is not assured and is subject to the availability of distributable surplus.
- ◆ **L&TAOF and L&TDEF:** The Scheme proposes to invest in equity and equity related instruments by identifying and exploiting price discrepancies in cash and derivative segments of the market. These investments by nature are volatile as the prices of the underlying securities are affected by various factors such as liquidity, time to settlement date, news flow, spreads between cash and derivatives market at different points of time, trading volumes, etc. There is no guarantee that the Fund Manager will be able to spot investment opportunities or correctly exploit price discrepancies in the different segments of the market. The Scheme is also expected to have a high portfolio churn, especially in a volatile market. There is an execution risk while implementing arbitrage strategies across various segments of the market, which may result in missed investment opportunities, or may also result in losses. In case of a large outflow from the Scheme, the Scheme may need to reverse the spot-futures transaction before the settlement of the futures trade. While reversing the spot-futures transaction on the Futures and Options settlement day on the exchange, there could be a risk of volume-weighted-average-price of the market before the price at which the actual reversal is processed resulting in basis risk.

Plan

Direct Plan:
Investors proposing to purchase units of the Scheme directly from the Fund (i.e. investments not routed through an AMFI Registration Number (ARN) Holder) can invest under the Direct Plan. The options referred above (i.e. Dividend (Re-investment and Payout) and Growth) will be available under the Direct Plan. The Scheme shall have a common portfolio i.e. the Direct Plan will not have a segregated portfolio. Investments under the Direct Plan can be made through various modes offered by the mutual fund for investing directly with the mutual fund (except Stock Exchange Platform(s) and all other platform(s) where investors' applications for subscription of units are routed through distributors). Investors subscribing under the Direct Plan will have to indicate "Direct Plan" against the Scheme name in the application form. Investors should also indicate "Direct" in the ARN column of the application form. However, in case distributor code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name, the distributor code will be ignored and the application will be processed under the Direct Plan. Further, where application is received for the Scheme without distributor code or "Direct" mentioned in the ARN Column, the application will be processed under the Direct Plan.

Regular Plan:
Investors proposing to purchase units of the Scheme through an ARN Holder can invest under the Regular Plan. The options referred above will be available under the Regular Plan. The Scheme shall have a common portfolio i.e. the Regular Plan will not have a segregated portfolio. The application(s) will be processed under Direct / Regular Plan as stated in the table below

Scenario	Distributor / broker code mentioned by the investor	Plan mentioned by the investor	Default plan in which the application shall be processed
1	Not mentioned	Not mentioned	Direct Plan
2	Not mentioned	Direct	Direct Plan
3	Not mentioned	Regular	Direct Plan
4	Mentioned	Direct	Direct Plan
5	Direct	Not Mentioned	Direct Plan
6	Direct	Regular	Direct Plan
7	Mentioned	Regular	Regular
8	Mentioned	Not Mentioned	Regular

In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the application shall be processed under the Regular Plan. The AMC shall contact and obtain the correct ARN code within 30 calendar days of the receipt of the application form from the investor/ distributor. In case, the correct code is not received within 30 calendar days, the AMC shall reprocess the transaction under Direct Plan from the date of application without any exit load.

This is not applicable for L&T Liquid Fund and L&T Ultra Short Term Fund

Risk Mitigation Factors

Equity Schemes: Investments in equity and equity related securities carry various risks such as inability to sell securities, trading volumes and settlement periods, liquidity risk, default risk, re-investment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging.

Further, the portfolio of a Scheme will be constructed in accordance with the investment restrictions specified under the Regulation which would help in mitigating certain risks relating to investments in securities market.

Debt Schemes: Investments in debt instruments carry various risks such as interest rate risk, liquidity risk, default risk, re-investment risk etc. Whilst such risks cannot be eliminated, they may be minimized by diversification and effective use of hedging.

Name of the Scheme	Investment Strategies of the Schemes
L&T Equity Fund	<p>The investment approach is bottom-up stock picking. The Scheme seeks to add the best opportunities that the market presents, without any sector/cap bias. The key features of the Fund's investment strategy include:</p> <p>Diversification: The Scheme will be well diversified across sectors in about 60 to 80 stocks. The Scheme is likely to be fully invested in equity at all times.</p> <p>Bottom-up stock picking: Consistent with L&T's approach, the Scheme focuses on bottom-up stock picking (i.e. focussing solely on prospects of individual stocks) as opposed to a top-down approach (i.e. predicting macro economic and political trends and taking investment decisions based on them).</p> <p>No cap bias: It will seek to identify the best stocks at a point in time, regardless of any market cap bias.</p>
L&T Tax Advantage Fund	<p>The investment approach is bottom-up stock picking. The Scheme seeks to add the best opportunities that the market presents, without any sector/cap bias. The key features of the Fund's investment strategy include:</p> <p>Diversification: The Scheme will be well diversified across sectors in about 60 to 80 stocks but it could hold more than 80 stocks at any given time. While holdings in individual stocks will generally not exceed 4% of net assets of the Scheme, there may be times when considering the investment opportunities, holdings in certain stocks could be in excess of 4%. The Scheme is likely to be fully invested in equity at all times.</p> <p>Bottom-up stock picking: Consistent with L&T's approach, the Scheme focuses on bottom-up stock picking (i.e. focusing solely on prospects of individual stocks) as opposed to a top-down approach (i.e. predicting macro economic and political trends and taking investment decisions based on them).</p> <p>No cap bias: It will seek to identify the best stocks at a point in time, regardless of any market cap bias</p>
L&T India Special Situations Fund	<p>The Scheme will, primarily be a diversified equity fund which will seek to invest in undervalued companies for long term investment with key theme focus being "Special Situations"-these are situations that are out-of-the-ordinary and which therefore present interesting stock picking opportunities.</p> <p>The types of companies that may fall within the scope of such Special Situations could include but are not limited to:</p> <ul style="list-style-type: none"> - companies with recovery potential. - companies whose growth potential, may not be fully recognised by the market. - companies with hidden/undervalued assets whose value, may not be fully recognised by the market. - companies with interesting product pipelines which could offer good earnings potential. - companies undertaking corporate restructuring. - companies which could be potential candidates for mergers and acquisitions related activities. <p>The investment approach will be bottom-up stock picking-where investments will be selected primarily on the basis of specific criteria relevant to the company in question rather than general macro-economic considerations. There will be no particular bias towards any market cap size or any sector. The Scheme will endeavour to remain fully invested in equity and related instruments at all times. A limited exposure to various derivatives instruments is likely for the purposes of hedging, portfolio balancing and optimising returns.</p>
L&T India Large Cap Fund	<p>The Scheme will primarily be a diversified equity fund which will likely (in normal market conditions) invest predominantly in large cap stocks to generate long term capital appreciation.</p> <p>The investment approach is bottom-up stock picking. A limited exposure to various equity derivatives instruments is likely for the purposes of hedging, portfolio balancing and optimizing returns.</p> <p>The key features of the Scheme's investment strategy include:</p> <p>Diversification: Subject to SEBI regulations, the Scheme will be well diversified across stocks and sectors. A limited exposure to various equity derivatives instruments is likely - for the purpose of hedging, portfolio balancing and optimizing returns.</p> <p>Stock Selection: The fund managers will adopt a methodology of bottom-up stock selection, with an emphasis on first-hand research. They will favour companies that offer the best value relative to their respective long-term growth prospects, returns in capital and management quality. When assessing a company, the fund managers will focus on understanding how each of these factors will change over time.</p>
L&T India Value Fund	<p>The Fund Managers would aim to identify undervalued stocks having the potential to deliver long term superior risk-adjusted returns. Undervalued stocks would include stocks which the Fund Managers believe are trading at less than their assessed values. The identification of undervalued stocks would involve fundamental analysis. It will be based on the evaluation of various factors including but not limited to stock valuation, financial strength, cash flows, company's competitive advantage, business prospects and earnings potential.</p> <p>Investments in derivatives Investment in derivatives will be made in accordance with the investment objective and the strategy of the Scheme and in accordance with the applicable Regulations, including for the purposes of hedging, portfolio balancing and optimizing returns. Hedging does not mean maximization of returns but only attempts to reduce systemic or market risk that may be inherent in the investment.</p> <p>Investments in ETFs The Scheme may also invest in ETFs to the extent permitted under the applicable laws, including the SEBI Regulations and guidelines specified by RBI. Investment in ETFs will be made in accordance with the investment objective and the strategy of the Scheme for the purposes of efficient portfolio management and optimizing return.</p> <p>Investments in debt and money market instruments Investments in debt and money market instruments shall be made for managing liquidity.</p>
L&T India Prudence Fund	<p>Investments in equity and equity related instruments: The Fund Manager(s) will focus primarily on bottom-up stock picking as opposed to a top-down approach. The Fund Manager(s) will generally aim to identify stocks which as per the Fund Manager's belief are sound, but which are mispriced. The Fund Manager(s) does this by analyzing a company's business model and financial parameters, valuations and business expectations.</p> <p>Investments in debt and money market instruments: The portfolio will be constructed and managed to generate returns to match the investment objective and to maintain adequate liquidity to accommodate funds movement. Capital appreciation opportunities could be explored by extending credit and duration exposure.</p> <p>The fund management team will take an active view of the interest rate movement supported by quantitative research, to include various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions will be a combination of credit analysis of individual exposures and analysis of macro economic factors to estimate the direction of interest rates and level of liquidity and will be taken, inter alia, on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1. Prevailing interest rate scenario 2. Returns offered relative to alternative investment opportunities. 3. Quality of the security/instrument (including the financial health of the issuer) 4. Maturity profile of the instrument 5. Liquidity of the security 6. Any other factors considered relevant in the opinion of the fund management team. <p>The fund management team, supported by credit research group will generally adopt a bottom-up approach for securities identification to optimise the risk adjusted returns on the diversified portfolio. The credit quality of the portfolio will be maintained and monitored using the in-house research capabilities as well as the inputs from the independent credit rating agencies. The bottom-up approach for credit issuer and security selection will be complemented by a top-down view for overall duration and credit allocation decisions.</p>

Name of the Scheme	Investment Strategies of the Schemes
	<p>Investments in derivatives: Investment in derivatives will be made in accordance with the investment objective and the strategy of the Scheme and in accordance with the applicable Regulations, for efficient portfolio management including for the purpose of hedging and portfolio balancing and optimizing returns to the extent permitted under and in accordance with the applicable Regulations. However, investments in interest rate swaps shall be done only for the purposes of hedging and shall be in terms of requirements specified by SEBI and/or RBI from time to time. Hedging does not mean maximization of returns but only attempts to reduce systemic or market risk that may be inherent in the investment. The manner in which derivative investments may be utilised and the benefits thereof have been explained in the Scheme Information Document.</p> <p>Investments in foreign securities: The Scheme may also invest in foreign securities for diversification as permitted under the applicable laws, including the SEBI Regulations. The investments of the Scheme in foreign securities will be restricted to 25% of the net assets of the Scheme. Any investments in foreign securities will only be undertaken after considering the risks as set out at paragraph "Risks associated with investing in foreign securities/overseas investments/offshore securities" in the Scheme Information Document. The Scheme may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments in overseas securities. The appointment of such intermediaries shall be in accordance with the applicable Regulations and payments will be within the permissible ceilings on expenses.</p>
L&T Dynamic Equity Fund	<p>The Scheme aims to dynamically manage the allocation across unhedged equity, hedged equity and debt and money market instruments using the PE ratio based asset allocation model. Historically, such a strategy of dynamically varying the equity allocation based on the PE ratio level has delivered superior risk-adjusted returns over the long term, although there is no guarantee that this past performance will be repeated in the future.</p> <p>Investment strategy for unhedged equity portion of the portfolio: The unhedged equity portion of the portfolio will be primarily invested in equity securities without any sector, style or market cap bias with the aim of generating long term capital appreciation. The fund managers will use a bottom-up investment approach for stock picking, with an emphasis on first-hand research. They will favour companies that offer the best value relative to their respective long-term growth prospects, returns on capital and management quality. When assessing a company, the fund managers will focus on understanding how each of these factors will change overtime.</p> <p>Investment strategy for hedged equity portion of the portfolio (derivatives): The investment strategy includes identifying and investing into arbitrage opportunities between spot/cash and futures prices of individual stocks. The Scheme will deploy "Cash and Carry Arbitrage" strategy wherein the Fund Manager will evaluate the difference between price of an individual stock in the futures market and in the spot/cash market. If the price of a stock in the futures market is higher than in the spot/cash market, after considering the associated costs and taxes, the Scheme may buy the stock in the spot/cash market and sell the same in equal quantity in the futures market simultaneously. Similarly, the Scheme may at a later date, unwind the trade by selling cash position and buying in the futures markets. The Fund Manager after careful analysis may also decide to roll over his position, if the market conditions are favorable.</p> <p>Investment strategy for debt and money market portion of the portfolio: The investments in debt and money market instruments would be aimed at maintaining a balance between safety, liquidity and return on investments. The debt and money market portion of the portfolio shall be actively managed with an endeavor to generate superior risk adjusted returns. The Fund Manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions inter alia may be taken on the basis of the following parameters: 1) Returns offered relative to alternative investment opportunities. 2) Liquidity of the security. 3) Prevailing interest rate scenario. 4) Quality of the security/instrument. (including the financial health of the issuer) 5) Maturity profile of the instrument. 6) Credit Rating for the instrument. 7) Any other factors considered relevant in the opinion of the Fund Management team.</p> <p>Further, the portfolio of the Scheme will be constructed in accordance with the investment restrictions specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.</p>
L&T Midcap Fund	<p>The investment strategy of the Scheme would be primarily to invest in mid cap equity and equity related securities as mentioned in the investment objective of the Scheme. The Scheme will invest in a universe of stocks, which has been arrived at using various filters like management quality, liquidity, competitive position and valuations. Using various analytical tools, management meetings and so on, the universe is continuously updated by our investment team. The strategy will be to build up diversified portfolio of quality stocks, with medium to long term potential.</p> <p>The Scheme proposes to invest at least 80% of the corpus in equity and equity related instruments. However, upon defensive considerations, this allocation could be reduced below 80% and correspondingly the allocation in debt and money market instruments will be increased. All investments made by the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996.</p> <p>The overall portfolio structuring would aim at controlling risk at moderate level. Security specific risk will be minimized by investing only on those companies that have been thoroughly researched in-house. Risk will also be managed through broad diversification of the portfolios within the framework of the Schemes' investment objective and policies.</p> <p>The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities which will focus on the follow key factors:</p> <ul style="list-style-type: none"> • Management quality, strategy and vision • Business dynamics • Financial strength of the company • Free cash flow generation • Returns on capital employed and returns on equity • Credit Rating for the instrument in case of Debt instruments

Name of the Scheme	Investment Strategies of the Schemes
L&T Tax Saver Fund	<p>The Scheme will endeavour to generate superior return by investing in equity and equity related instruments across the market capitalizations. The Scheme will use top-down/ bottom-up stock selection to build its portfolio.</p> <p>The risks of the Scheme would be managed by adequate diversification i.e., by spreading investments over a range of industries and companies.</p> <p>The investment strategy of the AMC is directed to investing in stocks, which, in the opinion of the Investment Manager, are priced at a material discount to their intrinsic value. Such intrinsic value is a function of both past performance and future growth prospects. The process of discovering the intrinsic value is through in-house research supplemented by research available from other sources.</p> <p>For selecting particular stocks as well as determining the potential value of such stocks, the AMC is guided, inter alia, by one or more of the following considerations:</p> <ul style="list-style-type: none"> • The financial strength of the companies, as indicated by well recognized financial parameters; • Reputation of the management and track record; • Companies that are relatively less prone to recessions or cycles, either because of the nature of their businesses or superior strategies followed by their management; • Companies which pursue a strategy to build strong brands for their products or services and those which are capable of building strong franchises; and • Market liquidity of the stock. <p>The Scheme is not restrained from investing in listed/ unlisted and/or rated/ unrated debt or money market securities, provided the investments are within the limits indicated in the Investment Pattern Table. Investment in unrated debt securities is made with the prior approval of the Board of the AMC, provided the investment is in terms of the parameters approved by the Board of the Trustee. Where the proposed investment is not within the parameters as mentioned above, approval of the Boards of both the AMC and the Trustee is taken before making the investment.</p> <p>The Scheme may invest in ADRs/ GDRs, if and in the manner permitted by SEBI/RBI. Such investments will be subject to obtaining regulatory approvals and in conformity with the investment objectives of the Scheme and the prevailing guidelines and Regulations.</p> <p>The Scheme may also use various derivative and hedging products from time to time, if and when and in a manner permitted by SEBI/ RBI from time to time, to reduce the risk of the portfolio.</p> <p>The overall portfolio structuring would aim at controlling risk at moderate level. Security specific risk will be minimized by investing only on those companies that have been thoroughly researched in house. Risk will also be managed through broad diversification of the portfolios within the framework of the Scheme' investment objective and policies.</p> <p>The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities which will focus on the follow key factors:</p> <ul style="list-style-type: none"> • Enduring business model • Management quality • Change in business fundamentals • Valuation
L&T Infrastructure Fund	<p>The L&T Infrastructure Fund will invest primarily in companies that are engaged in the area of infrastructure. The industries that fall under infrastructure sector would broadly include Banking & Financial Services, Cement & Cement Products, Capital Goods, Construction & related Industry, Electrical & Electronic components, Energy, Engineering, Metals/ Mining/Minerals, Housing, Oil & Gas and Allied Industries, Petroleum & Related Industry, Ports, Power and Power Equipment, Telecom, Transportation. The Scheme will also use derivative instruments such as Index/stock futures or options for portfolio rebalancing, hedging and return optimization.</p> <p>L&T Mutual Fund uses a system that it believes can assemble a portfolio of securities that is style neutral and that consistently outperforms traditional strategies that focus on a single style, such as value or growth. Since the Scheme is based on Infrastructure theme, the Fund Manager will focus mainly on companies that offer an opportunity to participate in the growth of infrastructure sector.</p> <p>The aim would be to select fundamentally sound companies having potential to deliver superior earnings growth in the long run. The fund manager would adopt both Top-down and Bottom-up approach for stock selection. Under Top –down approach, the aim would be to identify industries in the infrastructure sector that can offer long-term growth. Under bottom-up approach, the aim would be select companies with high profitability and scalability supported by sustainable competitive advantages. These companies will have along-term growth prospect and will be measured on earning potential.</p> <p>The Scheme proposes to invest at least 65% of the corpus in equity, equity-linked instruments and derivative instruments and may go upto 100% of the corpus. The investment in debt and money market instruments will be in the range of 0-35%.</p> <p>The overall portfolio structuring would aim at controlling risk at moderate level. Security specific risk will be minimised by investing only on those companies that have been thoroughly researched in-house. Risk will also be managed through broad diversification of the portfolios within the framework of the Scheme' investment objective and policies.</p> <p>The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities which will focus on the follow key factors:</p> <ul style="list-style-type: none"> • Enduring business model • Management quality • Change in business fundamentals • Valuation
L&T Arbitrage Opportunities Fund	<p>The investment strategy would be aimed at meeting the investment objective of the Scheme. The investment strategy includes identifying and investing into arbitrage opportunities between spot/cash and futures prices of individual stocks. The Scheme may also invest in debt and money market securities instruments.</p> <p>The Scheme will deploy "Cash and Carry Arbitrage" strategy wherein the Fund Manager will evaluate the difference between price of an individual stock in the futures market and in the spot/cash market. If the price of a stock in the futures market is higher than in the spot/cash market, after considering the associated costs and taxes, the Scheme may buy the stock in the spot/cash market and sell the same in equal quantity in the futures market simultaneously. Similarly, the Scheme may at a later date, unwind the trade by selling cash position and buying in the futures markets. The Fund Manager after careful analysis may also decide to roll over his position, if the market conditions are favourable.</p>
L&T Business Cycles Fund	<p>The Scheme will be a diversified equity fund which will invest predominantly in equity and equity related securities with focus on riding business cycles through dynamic allocation between various sectors and stocks at different stages of business cycles in the economy.</p> <p>Business cycles in an economy are typically characterized by the fluctuations in economic activity measured by real GDP growth and other macroeconomic variables. A business cycle is basically defined in terms of periods of expansion and contraction. During expansion, an economy experiences an increase in economic activity as evidenced by real GDP growth, industrial production, etc whereas during contraction, the pace of economic activity slows down. The business cycle is a critical determinant of equity sector performance over the intermediate term and the relative performance of equity market sectors typically tends to rotate as the overall economy shifts from one stage of the business cycle to the next, with different sectors assuming performance leadership in different economic phases. For example, during the expansionary phase in the domestic economy from FY 2004-FY 2008, most of the cyclical stocks such as those in capital goods and consumer durables sectors outperformed the stocks in the non-cyclical sectors. However, when the economic growth slowed down from FY 2009 to FY 2014, stocks in defensive sectors such as consumer staples and healthcare outperformed the cyclical stocks.</p> <p>The Scheme would aim to deploy the business cycles approach to investing by identifying such economic trends and investing in the sectors and stocks that are likely to outperform at any given stage of business cycle in the economy. For example, during period of expansion, the Scheme would aim to predominantly invest in stocks of companies in the cyclical sectors as they tend to outperform the broader market during expansionary phase. Similarly, during period of contraction the Scheme would look to invest in defensive sectors stocks or sectors that are less sensitive to changes in overall economic activity.</p> <p>The fund managers would combine a clear macro view with bottom-up stock selection approach for managing this Scheme. The selection of stocks at the primary level will be based on the stage of the domestic economic cycle. The fund managers could use various indicators such as corporate profit growth trends, inventory levels, credit growth, capacity utilization levels and other relevant factors to determine the stage of the economic cycle. Based on the views formed on the stage of the economic cycle, the fund managers would look to own stocks that they expect to outperform over the next few years. The stock selection would lay emphasis on company fundamentals, valuation, competitive positioning and management quality among other factors. The fund managers will favour companies that offer the best value relative to their respective long-term growth prospects, returns on capital and management quality. When assessing a company, the fund managers will focus on understanding how each of these factors will change over time.</p>

Name of the Scheme	Investment Strategies of the Schemes
L&T Equity Savings Fund	<p>Investment strategy for hedged equity portion of the portfolio The investment strategy includes identifying and investing into arbitrage opportunities between spot/cash and futures prices of individual stocks. The Scheme will deploy "Cash and Carry Arbitrage" strategy wherein the Fund Manager will evaluate the difference between price of an individual stock in the futures market and in the spot/cash market. If the price of a stock in the futures market is higher than in the spot/cash market, after considering the associated costs and taxes, the Scheme may buy the stock in the spot/cash market and sell the same in equal quantity in the futures market simultaneously. Similarly, the Scheme may at a later date, unwind the trade by selling cash position and buying in the futures markets. The Fund Manager after careful analysis may also decide to roll over his position, if the market conditions are favorable.</p> <p>Investment strategy for unhedged equity portion of the portfolio The unhedged equity portion of the portfolio will be primarily invested in equity securities without any sector, style or market cap bias with the aim of generating long term capital appreciation. The fund managers will use a bottom-up investment approach for stock picking, with an emphasis on first-hand research. They will favour companies that offer the best value relative to their respective long-term growth prospects, returns on capital and management quality. When assessing a company, the fund managers will focus on understanding how each of these factors will change over time.</p> <p>Investment strategy for debt and money market portion of the portfolio The investments in debt and money market instruments would be aimed at maintaining a balance between safety, liquidity and return on investments. With a view to maintain low to medium risk, the Scheme would focus on short to medium-term securities. The debt and money market portion of the portfolio shall be actively managed with an endeavor to generate superior risk adjusted returns. The Fund Manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions inter alia may be taken on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1) Returns offered relative to alternative investment opportunities. 2) Liquidity of the security 3) Prevailing interest rate scenario 4) Quality of the security/instrument (including the financial health of the issuer) 5) Maturity profile of the instrument 6) Credit Rating for the instrument 7) Any other factors considered relevant in the opinion of the Fund Management team.
L&T Flexi Bond Fund	<p>The portfolio will be constructed and actively managed to generate returns to match the investment objective and to maintain adequate liquidity to accommodate funds movement. Capital appreciation opportunities could be explored by extending credit and duration exposure. The fund management team will take an active view of the interest rate movement supported by quantitative research, to include various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions will be a combination of credit analysis of individual exposures and analysis of macro economic factors to estimate the direction of interest rates and level of liquidity and will be taken, inter alia, on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1. Prevailing interest rate scenario 2. Returns offered relative to alternative investment opportunities. 3. Quality of the security/instrument (including the financial health of the issuer) 4. Maturity profile of the instrument 5. Liquidity of the security 6. Any other factors considered relevant in the opinion of the fund management team. <p>The fund management team, supported by credit research group will generally adopt a bottom-up approach for securities identification to optimise the risk adjusted returns on the diversified portfolio. The credit quality of the portfolio will be maintained and monitored using the in-house research capabilities as well as the inputs from the independent credit rating agencies.</p> <p>The Scheme may invest in derivatives upto 100% of the net assets of the Scheme for the purpose of hedging and portfolio balancing purposes. Hedging does not mean maximization of returns but only attempts to reduce systemic or market risk that may be inherent in the investment.</p> <p>The Scheme may also invest in permitted offshore instruments for diversification.</p>
L&T Cash Fund	<p>The portfolio will be constructed and managed to generate returns to match the investment objective and to maintain adequate liquidity to accommodate funds movement. As the interest rate risk of the portfolio is likely to be similar to that of the money market curve, in line with the investment objective, a significant proportion of the total returns is likely to be in the form of income yield or accrual.</p> <p>The fund management team, comprising credit research and quantitative research, will take an active view on the key drivers affecting the short term interest rate movement as well as liquidity. This will include various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions will be a combination of credit analysis of individual exposures and analysis of macroeconomic factors to estimate the direction of interest rates and level of liquidity and will be taken, inter alia, on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1. Prevailing interest rate scenario 2. Returns offered relative to alternative investment opportunities 3. Quality of the security/instrument (including the financial health of the issuer) 4. Maturity profile of the instrument 5. Liquidity of the security 6. Hedging does not mean maximization of returns but only attempts to reduce systemic or market risk that may be inherent in the investment.</p> <p>The Scheme may also invest in permitted offshore instruments for diversification.</p>
L&T Low Duration Fund	<p>The portfolio will be constructed and actively managed to generate returns to match the investment objective and to maintain adequate liquidity to accommodate funds movement. As the interest rate risk of the portfolio is likely to be similar to that of the shorter end of the maturity spectrum, in line with the investment objective, a significant proportion of the total returns is likely to be in the form of income yield or accrual. Selective capital appreciation opportunities could be explored by extending credit and duration exposure above that offered by a cash fund.</p> <p>The fund management team will take an active view of the interest rate movement supported by quantitative research, to include various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions will be a combination of credit analysis of individual exposures and analysis of macro economic factors to estimate the direction of interest rates and level of liquidity and will be taken, inter alia, on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1. L&T Triple Ace Bond Fund	<p>The composition of the portfolio would be designed in such a manner so as to achieve the maximum return, while minimizing the overall risk. The choice of the instruments would also be in accordance with this objective. It may be understood that there is a trade-off between risk and return in investments. The return on a security usually increases with an increase in risk. Given the trade-off, the priority of the Scheme is to minimise the risk, even while trying to achieve the maximum returns. Since the securities with the highest credit rating should have the least risk, the investments is made predominantly in corporate securities (bonds, debentures & commercial papers) with a credit rating of "AAA" ascribed by CRISIL or an equivalent credit rating assigned by other agencies. The Scheme may also invest in privately placed debt of such AAA rated companies.</p> <p>The Scheme would invest mainly in the rated corporate securities. However, the absence of the desirable depth in the secondary market for corporate securities may restrict the pace of investments through the secondary market. Therefore, the funds of the Scheme could be invested in money market instruments like government securities, call money, commercial paper etc. The Scheme would invest in bonds/debentures or any other fixed income securities at least to an extent of 80% of the corpus. The balance will be invested in money market instruments of high quality.</p> <p>The overall portfolio structuring would aim at controlling risk at moderate level. Security specific risk will be minimised by investing only in those companies that have been thoroughly researched in-house. Risk will also be managed through broad diversification of the portfolio within the framework of the Scheme's investment objective and policies.</p> <p>The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities which will focus on the following key factors:</p> <ul style="list-style-type: none"> • Management quality, strategy and vision • Business dynamics • Financial strength of the Company • Free cash flow generation • Returns on capital employed and returns on equity • Credit rating
L&T Gilt Fund	<p>The Fund Management team endeavors' to meet the investment objective whilst maintaining a balance between safety, liquidity and the profitability aspect of various investments. <p>L&T Monthly Income Plan (Monthly Income is not assured and is subject to the availability of distributable surplus)</p>	<p>The overall portfolio structuring would aim at controlling risk at moderate level. Stock specific risk will be minimized by investing only in those companies that have been thoroughly researched in-house. Risk will also be managed through broad diversification of the portfolios within the framework of the Scheme's investment objective and policies.</p> <p>The Fund Management team endeavors to meet the investment objective whilst maintaining a balance between safety, liquidity and return on investments. With a view to maintain low to medium risk, the Schemes may focus on short to medium-term securities. The Scheme shall be actively managed and the Fund Management team may endeavor to generate superior returns whilst moderating credit and interest rate risk. The Fund Manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. Investment views/ decisions inter alia may be taken on the basis of the following parameters:</p> <ul style="list-style-type: none"> • Returns offered relative to alternative investment opportunities. • Liquidity of the security • Prevailing interest rate scenario • Quality of the security/instrument (including the financial health of the issuer) • Maturity profile of the instrument • Management quality, strategy and vision • Business dynamics • Financial strength of the company • Free cash flow generation • Returns on capital employed and returns on equity • Intangible assets such as brands, distribution etc. • Valuation in relation to the history of the stock as well as its peer group. • Any other factors considered relevant in the opinion of the Fund Management team. <p>The Scheme may also use derivatives to reduce the volatility of the portfolio and/or to enhance the portfolio returns. The Scheme may try to identify securities that yield relative value over others for similar risk and liquidity level. Various analytical tools like yield curve analysis, spreads between asset classes, horizon returns, forward implied interest rates, may be deployed to evaluate various investment options. Investments in debt instruments carry various risks like interest rate risk, liquidity risk, default risk, re-investment risk etc. Whilst these cannot be done away with, they may be minimized by diversification and effective use of hedging techniques.</p> <p>Other than investing in overseas securities, the Scheme may use techniques and instruments such as futures and options, warrants etc. to hedge the risk of fluctuations in the value of the investment portfolio. The Scheme may enter into derivatives transactions in a recognized stock exchange for the purpose of hedging and portfolio balancing in accordance with the guidelines issued by SEBI. These derivative instruments will include interest rate swaps, forward rate agreements, interest rate futures, index and stock futures and options or any other derivative instruments that are permissible or may be permissible in future under applicable regulations.</p> <p>Using Index Futures to increase percentage investments in equities:</p> <p>This strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme is open ended in nature and subject to daily inflows. There may be a time lag between the inflow of funds and their deployment in equities. If so desired, the Investment Manager would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.</p> <p>Using Index Futures to decrease percentage investments in equities:</p> <p>Similarly, in the case of a pending outflow of funds or where a negative view is taken on the market, the Investment Manager, in order to reduce exposure in equities may 'sell the index forward' by taking a short position in index Futures. This position can be unwound over a period of time by simultaneously selling the equity shares from the investment portfolio of the Scheme. Since the price of the futures contracts is expected to be positively correlated with the index, the value of a short position will move in the direction opposite to the movement in the index. The strategy of taking a short position in the index future is a hedging strategy and reduces the market risk and volatility of the portfolio.</p> <p>Portfolio Protection Using Index Put And Stock Put Options</p> <p>The purchase of an index put option gives the Scheme the option of selling the index to the writer of the put at a predetermined level of the index, called the strike price. If the index falls below this level, the Scheme benefits from the rise in the value of the put option.</p> <p>Similarly, as a stock hedging strategy, the purchase of a put option on the underlying stock would give the Scheme the option to sell the stock to the writer of the option at the predetermined strike price. This would lead to a capping of the loss in value of a stock. The contract value of options on individual stocks will be limited to 5% of the net assets of the Scheme.</p>
<p>L&T Liquid Fund</p>	<p>The Fund Management team endeavors to meet the investment objective whilst maintaining a balance between safety, liquidity and the profitability aspect of various investments. The aim of the investment strategy is to generate stable returns both in the short term and long term with a low risk, particularly minimal interest rate risk strategy. The Scheme shall be actively managed and the Fund Management team shall formulate an active view of the interest rate movement by monitoring various parameters of the Indian economy, as well as developments in global markets. Investments in debt instruments carry various risks like interest rate risk, liquidity risk, default risk, re-investment risk etc. Whilst these cannot be done away with, they may be minimized by diversification and effective use of hedging techniques. The Scheme may invest in short term deposits of scheduled commercial banks and in accordance with SEBI circulars issued from time to time. The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per the guidelines and regulations applicable to such transactions. Investment views/decisions inter alia may be taken on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1. Liquidity of the security 2. Quality of the security/instrument (including the financial health of the issuer) 3. Maturity profile of the instrument 4. Returns offered relative to alternative investment opportunities. 5. Prevailing interest rate scenario 6. Any other factors considered relevant in the opinion of the Fund Management team. <p>The Scheme may also use derivatives to reduce the volatility of the portfolio and/or to enhance the portfolio returns. The Scheme may try to identify securities that yield relative value over others for similar risk and liquidity level. Various analytical tools like yield curve analysis, spreads between asset classes, horizon returns, forward implied interest rates, may be deployed to evaluate various investment options. Debt securities (in the form of floating rate bond/notes, nonconvertible debentures, bonds, secured premium notes, zero coupon bonds, deep discount bonds, securitized debt, pass through certificates, asset backed securities, mortgage backed securities and any other domestic fixed income/debt securities including structured obligations etc.)</p>
<p>L&T Income Opportunities Fund</p>	<p>The Scheme seeks to generate regular returns and capital appreciation by investing in debt (including securitized debt), government and money market securities. The actual percentage of investment in various fixed income securities will be decided after considering the economic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity, prevailing political conditions and other considerations in the economy and markets. Also the Fund Manager will generally be guided by, but not restrained by, the ratings announced by various rating agencies on the assets in the portfolio. All investments made by the Scheme will be made in accordance with SEBI (Mutual Fund) Regulations, 1996.</p> <p>The overall portfolio structuring would aim at controlling risk at moderate level. Security specific risk will be minimised by investing only on those companies that have been thoroughly researched in-house. Risk will also be managed through broad diversification of the portfolios within the framework of the Scheme' investment objective and policies.</p> <p>The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities.</p> <p>The Scheme will invest in "Non Convertible Debentures", which are rated by at least one rating agency.</p>

Name of the Scheme	Investment Strategies of the Schemes
L&T Ultra Short Term Fund	<p>In line with the investment objective, the investments are being made in fixed income securities including money market instruments with low to moderate risk. The Investment Manager would apply multiple, objective criteria for selection of securities in the portfolio. These criteria would include yield, credit rating, tenure, liquidity and value added features of the instrument.</p> <p>The composition of the portfolio is designed in such a manner so as to achieve the maximum return, while minimizing the overall risk. The choice of the instruments is in accordance with the objective of the Scheme.</p> <p>It may be understood that there is a trade-off between risk and return in investments. The return on a security usually increases with an increase in risk. Given the trade-off, the priority of the Scheme is to minimize the risk, even while trying to achieve the maximum returns.</p> <p>The Scheme would invest in bonds issued by Government and corporate, money market instruments, debentures and other debt securities. The Scheme may invest 100% in money market instruments of high quality.</p>
L&T Floating Rate Fund	<p>In line with the investment objective of the Scheme, the investments would be made predominately in a portfolio comprising substantially of floating rate debt/ money market instruments, fixed rate debt/money market instruments swapped for floating rate returns, and fixed rate debt securities, Government securities and money market instruments.</p> <p>The Investment Manager would apply multiple objective criteria for selection of securities in the portfolio. These criteria would include yield, credit rating, tenure, liquidity and value added features of the instrument.</p> <p>The aim of the investment strategy is to generate reasonable returns with investment in securities predominantly with short term maturity/reset period and with a low risk, particularly minimal interest rate risk. The domestic debt markets are maturing rapidly with liquidity emerging in various debt segments through the introduction of new instruments and investors. The development of the derivatives markets, particularly Swaps and Forward Rate Agreements (FRAs) have made the environment more dynamic and have provided the opportunity to manage interest rate more actively. The aim of the Investment Manager will be to allocate the assets of the Scheme between various fixed interest rate securities and floating interest rate securities and use derivatives like Swaps and FRAs effectively with the objective of achieving reasonable returns.</p> <p>In the absence of floating rate securities, the same can be created synthetically with a combination of derivatives like Interest Rate Swaps and FRAs and fixed interest rate securities. The fixed income derivatives market has developed considerably during the last 5 years in India. The Scheme intends to use derivatives as permitted by RBI/SEBI for hedging interest rate risk. The actual percentage of investments in various floating and fixed interest rate securities and the position of derivatives will be decided after considering the prevailing market conditions, economic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity as well as other considerations in the economy and markets.</p>
L&T Short Term Opportunities Fund	<p>The objective of the Scheme is to generate returns with moderate level of risk by investing primarily in Debt Securities and Money Market Instruments of short term maturity, and accordingly, at least 65% of the portfolio would be invested in Debt and Money Market Instruments with residual maturity upto 24 months. The portfolio average maturity shall not exceed 3 years and construction of portfolio would be in a basket of short to medium term securities of various tenors as per yield curve dynamics and interest rate view.</p> <p>The Scheme shall follow an active duration management strategy.</p> <p>The fund manager shall manage the fund based on the outlook on interest rates and liquidity etc. Efficient portfolio construction shall be used to manage interest rate risk and credit risk across different asset class and duration buckets, and optimize risk-adjusted returns.</p> <p>The Scheme may use debt derivative instruments like interest rate swaps like Overnight Indexed Swaps ("OIS"), forward rate agreements, interest rate futures or such other derivative instruments as may be permitted under the applicable regulations. Derivatives may be used for the purpose of hedging, and portfolio balancing and such other purpose as may be permitted under the Regulations and Guidelines from time to time. The fund manager/s shall actively monitor and review markets and portfolios so that necessary rebalancing of the portfolios can be done.</p>
L&T Resurgent India Corporate Bond Fund	<p>The Scheme would primarily focus on investing in debt securities of fundamentally strong companies in growth sectors which are closely associated with the resurgence of domestic economy, with a flexibility to follow more conservative investment approach during economic downturns.</p> <p>The fund manager(s) believes that India is at an inflection point, and the economy has entered a strong, multi-year domestic growth phase and with the help of the Scheme, the AMC proposes to provides fixed income investors a unique opportunity to participate in the India growth revival story.</p> <p>With the government's thrust on fast policy action and special focus on infrastructure and allied sectors, we believe that the prime beneficiaries are likely to be companies in the following growth sectors – a) infrastructure and allied sectors including banking and financials and b) core industries, manufacturing and consumer goods. Fundamentally strong companies in these growth sectors closely associated with resurgence in domestic economy provides huge opportunity to invest in debt securities at current attractive yields.</p> <p>The Scheme intends to capitalize on investment opportunities in the aforesaid sectors.</p> <p>The sectors mentioned above are only indicative and this could undergo a change based upon economic cycle.</p> <p>The Scheme may actively use floating rate instruments and derivative instruments such as Interest Rate Futures, Interest Rate Swaps or any other derivative instruments that are permissible or may be permissible in future under applicable regulations including in order to hedge or reduce the interest rate risk of the portfolio in accordance with the investment objective of the Scheme</p> <p>The portfolio will be constructed and actively managed within the specified modified duration range to generate returns to match the investment objective and to maintain adequate liquidity to accommodate funds movement. The fund management team will take an active view of the interest rate movement supported by quantitative research, to include various parameters of the Indian economy, as well as developments in global markets. Investment views/decisions will be a combination of credit analysis of individual exposures and analysis of macro- economic factors to estimate the direction of interest rates and level of liquidity and will be taken, inter alia, on the basis of the following parameters:</p> <ol style="list-style-type: none"> 1. Prevailing interest rate scenario 2. Returns offered relative to alternative investment opportunities. 3. Quality of the security/instrument (including the financial health of the issuer) 4. Maturity profile of the instrument 5. Liquidity of the security 6. Any other factors considered relevant in the opinion of the fund management team. <p>The fund management team, supported by credit research group will generally adopt a combination of top down and bottom-up approach for securities identification to optimise the risk adjusted returns on the diversified portfolio. The credit quality of the portfolio will be maintained and monitored using the in-house research capabilities as well as the inputs from the independent credit rating agencies. Investments in debt instruments carry various risks such as interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be minimized by diversification and effective use of hedging techniques. Further, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market. The Scheme may invest upto 70% of the net assets of the Scheme in derivatives for the purpose of hedging and portfolio balancing purposes. Hedging does not mean maximization of returns but only attempts to reduce systemic or market risk that may be inherent in the investment. The Scheme may also invest in permitted Foreign Securities for diversification.</p> <p>Further, the portfolio of the Scheme will be constructed in accordance with the investment restrictions specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.</p>

Mailing address and contact details of Third Party must be written in full.

4. THIRD PARTY PAYMENT DETAILS

Third Party must provide in the Declaration Form the details of the Pay-in Bank Account i.e. account from which subscription payment is made in the name of the Beneficial Investor(s).

The Declaration Form with incomplete payment details shall be rejected. The following document(s) is/are required to be submitted by Third Party as per the mode of payment selected:

(i) Source of funds - if paid by cheque

In case the account number and account holder name of the third party is not pre-printed on the cheque, then the third party should provide any one of the following documents:

- A copy of the bank passbook or a statement of bank account having the name and address of the account holder and account number; or
- A letter (in original) from the bank on its letterhead certifying that the third party maintains an account with the bank, along with information like bank account number, bank branch, account type, the MICR code of the branch & IFSC Code (where available). The said letter should be certified by the bank manager with his / her full signature, name, employee code, bank seal and contact number.

The original documents along with the documents mentioned above should be submitted to the Official Points of Acceptance of L&T Mutual Fund. The copy of such documents will be verified with the original documents to the satisfaction of

the L&T Mutual Fund / Registrar and Transfer Agent. The original documents will be returned across the counter after due verification.

(ii) Source of funds - if funded by pre-funded investments such as Pay Order, Demand Draft, Banker's cheque etc. against registered Pay-in account

- a proof of debit to the investor's bank account in the form of a bank manager's certificate with details of account holder's name, bank account number and PAN as per bank records, if available, or
- a copy of the acknowledgement from the bank, wherein the instructions to debit carry the bank account details and name of the investor as an account holder are available, or
- a copy of the passbook/bank statement evidencing the debit for issuance of a DD.

(iii) Source of funds - if paid by RTGS, Bank Account-to-Account Transfer, NEFT, ECS, etc.

- In such case, investor is required to provide a copy which has been provided to the Bank indicating the account number and the debit instructions.
- For payment through online mode AMC may match payer account details with registered Pay-in bank accounts of the Investor.

(iv) Source of funds - if paid by a pre-funded instrument issued by the Bank against Cash

Subscription through a pre-funded instrument procured against cash shall only be accepted for investments below ₹ 50,000/-. Investor is required to provide a banker's certificate for issuance of a DD against cash stating the investor's name, bank account number and PAN as per bank record (if available).

However, investors are requested to note that such bank account number of the investor is same as the one of the registered bank account mandate(s) with the mutual fund or with the bank details mentioned in the Application Form.

5. SIGNATURE(S)

Signature(s) should be in English or in any Indian Language. Declarations on behalf of minors/FII clients/Employee/Agent/Dealer/Distributor should be signed by their Guardian/Custodian/Employer/AMC/Corporate respectively.

6. PERMANENT ACCOUNT NUMBER

As per SEBI Circular dated April 27,2007, Permanent Account Number (PAN) has been made the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, effective July 2, 2007. Transactions by unit holder/investors who fail to submit copy of PAN are liable to be rejected.

Accordingly, it is mandatory for all investors to quote their Permanent Account Number (PAN) and submit certified copy of the PAN card issued by the Income Tax Department, irrespective of the amount of investment, while making an application for Purchase of Units. In case of joint holding, PAN details of all holders should be submitted. In case the application is on behalf of minor, PAN details of the Guardian must be submitted. Furnishing an incorrect PAN or not furnishing these details could invite a penalty of ₹ 10,000 as per the extant provisions of the Income Tax Act, 1961.

However, there are certain nature of transactions and type of clients for which PAN is not mandatory, as mentioned below:

- Micro SIPs: SIPs upto ₹ 50,000/- per year per investor;
- Investments from investors residing in the state of Sikkim;
- Investments from Central Government, State Government and the official appointed by the Courts e.g. Official Liquidator, Court Receiver etc. (under the category of Government).

In all the above cases, Investors are requested to submit such documents as mentioned under "Non PAN based KYC applicability" under the Section "Know Your Customer".

7. PREVENTION OF MONEY LAUNDERING

SEBI vide its circular reference number ISD/CIR/RR/AML/1/06 dated January 18, 2006 mandated that all intermediaries including Mutual Funds should formulate and implement a proper policy framework as per the guidelines on anti money laundering measures and also to adopt a Know Your Customer (KYC) policy.

The Third Party should ensure that the amount invested in the Scheme is through legitimate sources only and does not involve and is not designated for the purpose of any contravention or evasion of the provisions of the Income Tax Act, Prevention of Money Laundering Act (PMLA), Prevention of Corruption Act and / or any other applicable law in force and also any laws enacted by the Government of India from time to time or any rules, regulations, notifications or directions issued thereunder.

To ensure appropriate identification of the Third Party and with a view to monitor transactions for the prevention of money laundering, L&T Mutual Fund reserves the right to seek information and/or obtain and retain documentation for establishing the identity of the third party, proof of residence, source of funds, etc. It may re-verify identity and obtain any incomplete or additional information for this purpose.

L&T Mutual Fund and their Directors, employees and agents shall not be liable in any manner for any claims arising whatsoever on account of freezing the folios/rejection of any application / allotment of Units or mandatory redemption of Units due to non compliance with the provisions of the Act, SEBI/AMFI circular(s) and KYC policy and / or where the AMC believes that transaction is suspicious in nature within the purview of the Act and SEBI/AMFI circular(s) and reporting the same to FIU-IND.

8. KNOW YOUR CUSTOMER (KYC) COMPLIANCE

As per SEBI guidelines, "Know Your Customer (KYC)" policy should clearly spell out the client identification procedure in order to implement the anti money

laundering provisions as envisaged under the Anti Money Laundering Act, 2002. Investors are requested to note that it shall be mandatory to quote the KYC Compliance status and attach attested/certified copy of KYC Acknowledgement of all fresh investment transactions registered by Individual investors effective January 1, 2011, irrespective of the amount of investment. Individual investors shall include each of the applicants, in case of application in joint name, Power of Attorney (POA) holders where investments are made through a POA, Guardian where investments are made in the name of a minor and individual becoming an investor due to an operation of law.

In order to make the data capture and document submission easy and convenient for the investors, mutual fund industry has collectively entrusted this responsibility of collection of documents relating to identity and address and record keeping to an independent agency presently CDSL Ventures Limited (CVL) that will act as central record keeping agency. As a token of having verified the identity and address and for efficient retrieval of records, CVL will issue an acknowledgement to each investor who submits an application.

• **PAN Based Common Standard KYC through CVL**

Investor who wish to complete the KYC requirements have to submit a completed Application Form for KYC along with all the prescribed documents listed in the KYC Application Form, at any of the Point of Service ('POS'). POS are the designated centres appointed by CVL for receiving application forms, checking the documents and issuing the acknowledgement thereof.

The KYC for investor will be performed based on the Permanent Account Number (APN), so submission of PAN is mandatory for all the investors. CVL will not issue any new number instead PAN will be accepted as the identification number for the investor. The investor will quote their PAN at the time of investment in the Scheme for which the Front Office of the AMC/Registrar & Transfer Agent will access the CVL database for detailed information.

The acknowledgement will be issued by CVL based on the submission of the following proof/documents:

i) photo, ii) proof of identity, iii) proof of address, iv) copy of PAN Card, v) information with regard to financial status and other demographic details, and vi) any other information and/or documentation to establish identity of any unitholder.

It should also be noted that investors are required to be registered with CVL, failing to do so the KYC for the investor will not be complete and the investment for the investor is liable to be rejected.

• **Non PAN Based KYC applicability**

For certain nature of transactions and type of clients, PAN is not mandatory. In such cases, common standard KYC through CVL will not apply. In such cases, the client will have to submit certain documents as elaborated below and KYC will be handled by the AMC/Registrar & Transfer Agent i.e. Computer Age Management Services Private Limited directly. Such nature of transaction and type of clients and the documents required for successful completion of KYC is mentioned below:

A. Micro SIPs: Micro schemes such as Micro SIPs upto ₹ 50,000/- per year per investor

Documents required

1. Standard specified identification instruments like Voter ID card, Government/ Defence ID card, Card of reputed employer, Driving Licence, Passport in lieu of PAN.
2. Proof of address copy. It is clarified that where photo identification document contains the address of the investor, a separate proof of address is not required.
3. Supporting documents copy shall be self-attested by the investor/attested by the ARN holder mentioning the ARN number or attested by any competent authority.

However, it is clarified that Investors with PAN are required to follow PAN based common standard KYC through CVL procedure as mentioned above.

B. Investments from investors residing in Sikkim

Documents required

1. Proof of address of Sikkim state and application form should mention the same address.
2. Address proof shall be self-attested by the investor/attested by the ARN holder mentioning the ARN number or attested by any competent authority.

C. Investments from Central Government, State Government and the officials appointed by the courts, e.g., Official Liquidator, Court receiver, etc., (under the category of Government)

Documents required

1. Proof of identity as documentary evidence in support of the claim for such an exemption.
2. Such proof shall be self-attested by the investor/attested by the ARN holder mentioning the ARN number or attested by any competent authority.

For complying with the KYC requirement, all the investors could approach POS or CVL for submitting their KYC Application Form (KAF) and the mandatory documents of Proof of Identity and Proof of Address. The list of all documents required to fill up the form and the detailed process is mentioned above and can be found in the KYC Application Form. An updated list of POS is available at www.Intmf.com and at www.cvllindia.com.

After verification of the KYC Application Form and accompanying documents, investors will receive a letter certifying their KYC compliance. Investors are requested to visit the Knowledge Centre Section of our website www.Intmf.com and also read the KYC section of Statement of Additional Information (SAI) in detail.

Investors are requested to note that KYC would be subject to verification of the veracity of the claim of the investors by collecting sufficient documentary evidence. The AMC reserves the right to ask for the necessary documentation to the satisfaction of the mutual fund.

The AMC, under powers delegated by the Trustee, shall have absolute discretion to reject any application, prevent further transactions by a Unit holder, if after due diligence, the investor/unitholder/a person making the payment on behalf of the investor does not fulfil the requirements of the KYC Policy or the AMC believes that the transaction is suspicious in nature with regard to money laundering.
